

WAP POS – Motorparts Shop POS + Inventory System

1. System Name

WAP POS

Complete Motorparts POS, Inventory, Sales, Barcode & Business Management System

Tagline ideas:

- **Fast Sales. Smart Inventory. Reliable Motorparts Management.**
- **Sell Faster. Track Smarter. Manage Better.**
- **Built for Motorparts Shops, Warehouses, and Multi-Branch Operations.**

2. Logo Concept

Logo Text

WAP POS

Logo Style

Modern, bold, and technology-based logo suitable for desktop, mobile, receipt header, login page, and app icon.

Icon Concept

A combination of:

- Shopping cart or POS terminal
- Gear icon for motorparts
- Barcode lines
- Speed/bolt accent for fast checkout

Recommended Colors

- **Primary:** Navy Blue #0B1F3A
- **Accent:** Electric Blue #1E88E5
- **Success/Inventory:** Green #22C55E
- **Warning/Low Stock:** Orange #F59E0B
- **Danger/Critical Stock:** Red #EF4444
- **Background:** Light Gray #F5F7FA
- **Dark Mode Background:** #0F172A

Logo Layout Options

1. **Horizontal Logo:** Gear + barcode icon on the left, WAP POS text on the right.
2. **App Icon:** Gear + barcode + letter W.
3. **Receipt Logo:** Simple black-and-white WAP POS with shop name below.

3. System Overview

WAP POS is a complete POS and inventory management system designed for motorparts shops. It supports fast checkout, barcode scanning, stock monitoring, supplier management, purchase orders, sales reports, customer credit, expenses, returns, discounts, user permissions, multi-branch operations, and responsive access from desktop, tablet, and mobile devices.

The system is designed for:

- Motorparts retail shops
- Motorcycle parts stores
- Auto parts stores
- Wholesale motorparts suppliers
- Multi-branch parts businesses
- Small to enterprise-level retail operations

4. Main User Roles

4.1 Super Admin / Owner

Full system access:

- Dashboard
- POS sales
- Inventory
- Purchasing
- Suppliers
- Customers
- Staff accounts
- Reports
- Settings
- Branches
- Subscriptions
- Audit logs

4.2 Admin / Manager

Can manage daily operations:

- POS monitoring
- Inventory adjustment
- Purchase orders
- Reports
- Staff performance
- Customer records
- Returns and refunds

4.3 Cashier

Limited access:

- POS checkout
- Barcode scanning
- Product search
- Apply discount if allowed
- Print receipt
- Hold order
- View own sales

4.4 Inventory Staff

Access to:

- Product list
- Stock receiving
- Stock adjustment
- Stock transfer
- Low-stock monitoring
- Barcode printing

4.5 Accountant

Access to:

- Sales reports
- Expenses
- Profit and loss
- Supplier payments
- Customer receivables
- Cash drawer reports

4.6 Branch Staff

Access limited to assigned branch only.

5. Enterprise Modules

Module 1: Authentication & Security

Features

- Login with username/email and password
- Optional PIN login for cashier
- Forgot password
- Two-factor authentication for admin
- Role-based access control
- Branch-based access restriction
- Device/session monitoring
- Login history
- Password policy
- Auto logout after inactivity
- Account lock after failed attempts

UI Mockup Idea

Login Page Layout

- Left side: WAP POS logo, motorparts background illustration
- Right side: login form
- Fields: Email/Username, Password, Branch selector
- Buttons: Login, Forgot Password
- Dark mode and light mode support

Module 2: Main Dashboard

Features

- Total sales today
- Net sales
- Gross profit
- Total transactions
- Cash sales
- GCash/Bank/Card sales
- Low stock items
- Out-of-stock items
- Top-selling motorparts

- Slow-moving items
- Daily sales chart
- Monthly revenue chart
- Inventory value
- Pending purchase orders
- Customer credit balance
- Supplier payable balance
- Staff performance
- Branch comparison

Dashboard Cards

- Today's Sales
- Today's Profit
- Inventory Value
- Low Stock Alert
- Total Products
- Total Customers
- Pending Orders
- Total Expenses

UI Mockup Idea

Desktop: Sidebar menu + top bar + KPI cards + charts + recent sales table.

Mobile: Bottom navigation + compact cards + swipeable charts.

Module 3: POS Checkout

Features

- Fast product search by name, SKU, barcode, brand, category, engine model, motorcycle model
- Barcode scanning support
- Manual barcode entry
- Product image display
- Add/remove item from cart
- Quantity adjustment
- Price override with permission
- Discount per item
- Discount per total order
- Tax/VAT support
- Multiple payment methods
- Split payment

- Hold order
- Recall held order
- Void transaction with permission
- Return/refund processing
- Print receipt
- Reprint receipt
- Email receipt
- SMS receipt optional
- Open cash drawer integration
- Daily cashier shift closing

Motorparts-Specific Search Filters

- Part number
- Brand
- Motorcycle model
- Engine type
- Year model
- Category
- Compatible vehicle
- Supplier code
- Shelf/bin location

POS Payment Methods

- Cash
- Card
- Bank transfer
- GCash / e-wallet
- Customer credit
- Split payment

UI Mockup Idea

POS Desktop Layout

- Left side: product search and product grid
- Right side: cart summary
- Bottom: payment buttons and receipt actions

POS Mobile Layout

- Top: search/barcode button
- Middle: product list
- Bottom: sticky cart summary and checkout button

Module 4: Barcode Scanning & Barcode Printing

Features

- Barcode scanner support via USB scanner
- Mobile camera barcode scanning
- Generate barcode per product
- Print barcode labels
- Batch barcode printing
- Custom barcode label size
- Product barcode/SKU mapping
- Duplicate barcode validation
- Supplier barcode support
- QR code support optional

Barcode Label Details

- Product name
- SKU
- Barcode
- Price
- Brand
- Shelf location

UI Mockup Idea

Barcode module page with:

- Product search
- Barcode preview
- Label size selector
- Print quantity
- Print button

Module 5: Product & Inventory Management

Features

- Add/edit/delete products
- Product image upload
- Product SKU
- Barcode
- Part number

- Category
- Brand
- Supplier
- Cost price
- Selling price
- Wholesale price
- Minimum price
- Stock quantity
- Reorder level
- Critical stock level
- Shelf/bin location
- Compatible motorcycle models
- Unit type
- Warranty period
- Product status: active/inactive
- Product variants
- Serial number tracking optional
- Batch tracking optional

Motorparts Product Fields

- Product Name
- Part Number
- SKU
- Barcode
- Brand
- Category
- Compatible Motorcycle Model
- Engine Type
- Year Model
- Supplier
- Shelf Location
- Cost Price
- Selling Price
- Wholesale Price
- Stock Quantity
- Reorder Level
- Warranty
- Product Image

Inventory Features

- Real-time stock deduction after sale

- Stock receiving
- Stock adjustment
- Stock transfer between branches
- Damaged stock tracking
- Returned stock tracking
- Stock count/audit
- Inventory valuation
- Low stock alerts
- Expiry tracking for items with shelf life, if needed

UI Mockup Idea

Product list table with filters:

- Search
- Category
- Brand
- Supplier
- Stock status
- Branch

Product form with tab layout:

1. Basic Details
2. Pricing
3. Stock Settings
4. Compatibility
5. Images
6. History

Module 6: Categories, Brands & Motorcycle Compatibility

Features

- Category management
- Brand management
- Motorcycle model database
- Engine type database
- Compatibility mapping
- Product grouping

Example Categories

- Engine Parts
- Brake System

- Tires & Tubes
- Electrical Parts
- Lights & Signal
- Chains & Sprockets
- Oils & Lubricants
- Body Parts
- Accessories
- Tools
- Batteries
- Cables
- Bearings
- Suspension Parts

UI Mockup Idea

Tree-style category manager with drag-and-drop sorting.

Module 7: Purchase Order & Stock Receiving

Features

- Create purchase order
- Select supplier
- Add products to PO
- Auto-suggest low-stock items
- PO approval workflow
- Receive full or partial stock
- Update inventory after receiving
- Record supplier invoice number
- Attach invoice image/PDF
- Supplier payment tracking
- PO status tracking

PO Status

- Draft
- Pending Approval
- Approved
- Ordered
- Partially Received
- Fully Received
- Cancelled

UI Mockup Idea

Purchase order screen with:

- Supplier details
- Product table
- Cost summary
- Approval button
- Receiving status

Module 8: Supplier Management

Features

- Supplier profile
- Contact person
- Phone number
- Email
- Address
- Tax/VAT number
- Payment terms
- Supplier product list
- Purchase history
- Payable balance
- Supplier invoices
- Supplier performance

UI Mockup Idea

Supplier profile page with tabs:

1. Overview
2. Products
3. Purchase Orders
4. Payments
5. Documents

Module 9: Customer Management

Features

- Customer profile
- Walk-in customer option

- Contact number
- Address
- Customer type: retail/wholesale/mechanic/reseller
- Customer credit limit
- Customer receivables
- Purchase history
- Loyalty points optional
- Vehicle/motorcycle information
- Warranty records

Customer Credit Features

- Sell on credit
- Partial payment
- Payment history
- Credit limit control
- Due date alerts
- Statement of account

UI Mockup Idea

Customer profile with:

- Total purchases
- Outstanding balance
- Recent transactions
- Credit status

Module 10: Returns, Refunds & Warranty

Features

- Return by receipt number
- Return by customer name
- Return damaged item
- Exchange item
- Refund to cash/card/wallet
- Store credit
- Warranty claim tracking
- Reason for return
- Approval required for refund
- Returned stock handling

Return Status

- Requested
- Approved
- Rejected
- Refunded
- Exchanged
- Warranty Processing

UI Mockup Idea

Return screen with receipt search, product list, reason dropdown, refund method, and approval section.

Module 11: Sales Orders, Quotations & Wholesale

Features

- Create quotation
- Convert quotation to sale
- Create sales order
- Reserve stock
- Wholesale pricing
- Customer-specific pricing
- Bulk discount
- Print quotation
- Send quotation via email or WhatsApp optional

UI Mockup Idea

Quotation builder similar to POS but with customer details, validity date, and approval status.

Module 12: Expenses Management

Features

- Record daily expenses
- Expense category
- Supplier payment
- Staff salary record optional
- Rent/utilities
- Delivery expense
- Attach receipt photo
- Expense approval

- Expense report

UI Mockup Idea

Expense dashboard with category chart and monthly expense list.

Module 13: Cash Drawer & Shift Management

Features

- Open shift
- Starting cash
- Cash in/out
- Cash sales
- Non-cash sales
- Expected cash
- Actual cash
- Cash difference
- Close shift
- Manager approval
- Shift report printing

Cashier Flow

1. Cashier logs in
2. Opens shift
3. Enters starting cash
4. Processes sales
5. Closes shift
6. Counts actual cash
7. System shows over/short
8. Manager approves

UI Mockup Idea

Shift closing page with expected cash, actual cash, difference, notes, and submit button.

Module 14: Reports & Analytics

Sales Reports

- Daily sales
- Monthly sales
- Sales by cashier

- Sales by branch
- Sales by category
- Sales by brand
- Sales by product
- Sales by payment method
- Discount report
- Refund report

Inventory Reports

- Current stock
- Low stock
- Out of stock
- Inventory valuation
- Stock movement
- Stock adjustment
- Fast-moving items
- Slow-moving items
- Dead stock

Financial Reports

- Gross sales
- Net sales
- Gross profit
- Expenses
- Profit and loss
- Supplier payables
- Customer receivables
- Cash drawer summary

UI Mockup Idea

Report center with cards by category and export buttons.

Export Options

- PDF
- Excel
- CSV
- Print

Module 15: Multi-Branch Management

Features

- Branch profile
- Branch inventory
- Branch sales
- Branch transfer
- Branch-level pricing optional
- Staff assigned per branch
- Branch performance dashboard
- Centralized owner dashboard

UI Mockup Idea

Branch dashboard with branch selector and comparison charts.

Module 16: User Management & Permissions

Features

- Create staff account
- Assign role
- Assign branch
- Enable/disable account
- Permission matrix
- Cashier PIN
- Activity logs
- Sales restriction settings

Permission Examples

- Can view cost price
- Can apply discount
- Can void sale
- Can refund
- Can edit inventory
- Can delete product
- Can approve purchase order
- Can view reports

UI Mockup Idea

User list table + role permission checkbox grid.

Module 17: Audit Logs & Activity History

Features

- Login history
- Product changes
- Price changes
- Stock adjustment logs
- Deleted records history
- Void/refund logs
- User activity logs
- Export audit trail

UI Mockup Idea

Timeline-style activity log with filters by user, module, date, and branch.

Module 18: Notifications & Alerts

Features

- Low stock alert
- Out-of-stock alert
- Pending PO alert
- Customer credit due alert
- Supplier payment due alert
- Shift closing reminder
- Unusual discount alert
- Negative stock alert
- Expiring warranty alert

Notification Channels

- In-app notification
- Email optional
- SMS optional
- WhatsApp optional

UI Mockup Idea

Notification center with tabs: Inventory, Sales, Finance, System.

Module 19: Settings & Configuration

Features

- Shop profile
- Receipt settings
- Tax/VAT settings
- Currency settings
- Payment methods
- Discount rules
- Barcode settings
- Printer settings
- Branch settings
- Backup settings
- Data import/export

UI Mockup Idea

Settings page with grouped cards and toggle switches.

Module 20: Subscription & SaaS Management

Features

- Subscription plan
- Branch limit
- User limit
- Product limit
- Payment status
- Renewal date
- Invoice history
- Upgrade/downgrade plan
- Trial period
- Feature lock by plan

Sample Plans

Starter Plan

For small single-branch shops.

- 1 branch
- 3 users
- POS
- Basic inventory
- Basic reports

Professional Plan

For growing shops.

- 3 branches
- 10 users
- Barcode printing
- Purchase orders
- Customer credit
- Advanced reports

Enterprise Plan

For large motorparts businesses.

- Unlimited branches
- Unlimited users
- Multi-branch transfers
- API access
- Audit logs
- Advanced analytics
- Custom branding

6. Complete System Flow

6.1 Product Setup Flow

1. Admin logs in.
2. Goes to Products.
3. Creates category, brand, supplier, and compatibility data.
4. Adds product details.
5. Adds barcode or generates barcode.
6. Sets cost price, selling price, reorder level, and shelf location.
7. Saves product.
8. Product becomes available in POS.

6.2 Stock Purchase & Receiving Flow

1. Inventory staff checks low-stock report.
2. Creates purchase order.
3. Selects supplier.
4. Adds required items.
5. Manager approves PO.
6. Supplier delivers items.

7. Staff receives stock.
8. System updates inventory quantity.
9. Supplier payable is recorded.
10. Purchase report is updated.

6.3 POS Sales Flow

1. Cashier opens shift.
2. Customer selects motorparts.
3. Cashier scans barcode or searches product.
4. Items are added to cart.
5. System calculates subtotal, discount, tax, and total.
6. Customer pays using cash/card/e-wallet/credit.
7. System saves transaction.
8. Inventory is automatically deducted.
9. Receipt is printed.
10. Sales report is updated.

6.4 Return/Refund Flow

1. Customer presents receipt.
2. Staff searches receipt number.
3. Selects item to return.
4. Adds reason for return.
5. Manager approves if required.
6. System processes refund/exchange/store credit.
7. Inventory is updated depending on item condition.
8. Return report is updated.

6.5 Customer Credit Flow

1. Customer is selected in POS.
2. Cashier chooses Credit Payment.
3. System checks credit limit.
4. Sale is approved if within limit.
5. Receivable balance is updated.
6. Customer payment can be recorded later.
7. Statement of account can be printed.

6.6 Shift Closing Flow

1. Cashier clicks Close Shift.
2. System shows expected cash.
3. Cashier enters actual cash.
4. System calculates difference.
5. Cashier submits shift report.
6. Manager reviews and approves.
7. Daily cash report is generated.

7. Receipt Design

Receipt Actions

- Print receipt
- Reprint receipt
- Save as PDF
- Send to email
- Send via SMS/WhatsApp optional

8. Responsive UI/UX Design Direction

Design Style

- Modern SaaS dashboard
- Clean sidebar
- Rounded cards
- Light and dark mode
- Fast cashier interface
- Large buttons for touchscreen POS
- Mobile-friendly layout
- Color-coded stock warnings
- Smooth icons and charts

Desktop Layout

- Left sidebar navigation
- Top search bar
- Notification bell
- User profile menu
- Main content with cards, tables, and charts

Tablet Layout

- Collapsible sidebar
- Touch-friendly POS grid
- Swipeable panels

Mobile Layout

- Bottom navigation
- Compact cards
- Floating scan barcode button
- Sticky checkout button

9. Page-by-Page Mockup Design Guide

9.1 Login Page

Elements:

- WAP POS logo
- Email/username field
- Password field
- Branch selector
- Remember me
- Login button
- Forgot password link

Visual style:

- Dark navy background
- Gear/barcode illustration
- Glassmorphism login card

9.2 Dashboard Page

Elements:

- KPI cards
- Sales chart
- Top products
- Low-stock list
- Recent transactions
- Branch selector

Visual style:

- White/light gray background
- Blue and green accent cards
- Red/orange alert badges

9.3 POS Page

Elements:

- Product search
- Barcode scan button
- Category tabs
- Product grid
- Cart panel

- Payment buttons
- Receipt print button

Visual style:

- Large touch buttons
- Sticky cart
- Fast checkout layout

9.4 Inventory Page

Elements:

- Product table
- Stock status badge
- Add product button
- Import/export buttons
- Filters

Visual style:

- Enterprise data table
- Color-coded inventory status

9.5 Product Details Page

Elements:

- Product image
- SKU/barcode
- Pricing
- Stock quantity
- Compatibility
- Sales history
- Stock movement

Visual style:

- Tabbed form layout

9.6 Purchase Order Page

Elements:

- Supplier selector

- Product list
- Quantity and cost
- Approval workflow
- Receiving status

Visual style:

- Document-style layout
- Clear status badges

9.7 Supplier Page

Elements:

- Supplier profile
- Purchase orders
- Payables
- Documents

Visual style:

- CRM-style profile page

9.8 Customer Page

Elements:

- Customer profile
- Purchase history
- Credit balance
- Vehicle information

Visual style:

- Customer card with transaction timeline

9.9 Reports Page

Elements:

- Report category cards
- Date range picker
- Export buttons
- Charts and tables

Visual style:

- Analytics dashboard

9.10 Settings Page

Elements:

- Shop profile
- Receipt settings
- Tax settings
- Payment methods
- Printer settings
- User permissions

Visual style:

- Organized cards with switches

10. Suggested Sidebar Menu

10. Returns & Warranty
11. Expenses
12. Cash Drawer / Shifts
13. Reports
14. Branches
15. Users & Roles
16. Notifications
17. Audit Logs
18. Subscription
19. Settings
20. Help & Support

11. Database Main Tables

Recommended core tables:

- users
- roles
- permissions
- branches
- products
- product_categories
- brands
- suppliers
- customers
- inventory_stocks
- stock_movements
- purchase_orders
- purchase_order_items
- sales
- sale_items
- payments
- returns
- return_items
- expenses
- cash_shifts
- cash_movements
- barcode_labels
- audit_logs
- notifications
- subscriptions
- settings

Mobile Responsive

- Progressive Web App support
- Mobile camera barcode scanning
- Installable on Android/iPhone browser

Hardware Integration

- Barcode scanner
- Thermal receipt printer
- Cash drawer
- Barcode label printer

12. Security Features

- Role-based access
- Encrypted password
- Secure login sessions
- Activity logs
- Backup and restore
- Database audit trail
- Permission-based discount/refund
- Prevent negative inventory
- Data export restriction
- Admin approval for sensitive actions

13. Final System Summary

WAP POS will be a professional, responsive, enterprise-ready POS and inventory system for motorparts shops. It will include fast barcode checkout, complete product and inventory control, supplier and purchase order management, customer credit tracking, receipts, reports, cash drawer monitoring, role-based access, multi-branch support, and modern UI/UX for desktop, tablet, and mobile.

This system can be sold as a SaaS product or deployed privately for individual motorparts businesses.

Smart POS. Smarter Business.

Manage sales, inventory, customers and more
— all in one powerful system.

Sales & POS

Fast and secure transactions

Inventory Management

Track stock in real-time
